INTRODUCTION
AND
GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, present to subscribers and the general public, this, the latest edition of the Washington City Directory. (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 city and suburban Directories).

Confidence in the growth of Washington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the city Directory is a mirror truly reflecting Washington to the world.

The enviable position occupied by HILL's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Washington City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Washington, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The City Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Washington, and the name, official personnel, nature and address of each firm and corporation in the community. A special feature of this section is the listing of telephone numbers.

839599

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols and Zip Codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper. This publication also contains a Beaufort County Rural Residents Directory printed on white paper immediately following the Numerical Telephone Directory.

Community Publicity

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the City Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Washington and vicinity.

The Washington Out-of-Town City Directory Library

Through the courtesy of the publishers of the Washington City Directory, a Directory Library is maintained in the offices of the Washington Chamber Of Commerce, for free reference by the general public. This is one of more than 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

THE HISTORIC BEAUFORT COUNTY COURTHOUSE

THE NEW BEAUFORT COUNTY COURTHOUSE

STORY OF THE CITY OF WASHINGTON, N. C.

The City Today

The original Washington was founded on the 337 acres granted to Christopher Dudley in 1726. In 1771 James Bonner, then owner of the land, founded a town called "Forks of the Tar River," which by 1776 was known as Washington, the first town in the United States so named.

Washington was incorporated by the General Assembly at Hillsboro in 1728. In 1784 the assembly established a trading post at Washington "for the speedy decision of mercantile transactions with foreigners and transient persons."

Washington is in the western part of Beaufort County in the east-central portion of the Coastal Plains section of North Carolina. Located on navigable Tar and Pamlico Rivers, it is 135 miles south of Norfolk, Virginia, and 105 miles east of Raleigh, North Carolina. It is on U. S. Highways 17 and 264, and on three state highways and two railroads.

Beaufort County has 290,816 acres of farmland averaging 40 acres per farm, with 3,000 farms, 2,863 of which are commercial farms. Main agricultural products are tobacco, cotton, corn, soy beans, potatoes, livestock, oats, peanuts and lespedeza.

Existing industries consist of a yarn spinning plant, a shirt manufacturing plant, a dressmaking plant, grain elevators, lumber and planing mills, mattress manufacturing plants, a furniture plant, a manufacturer of automobile truck bodies, boat builders, electrical appliances, phosphate, soft drinks, meat processors and filters and valves. These industries draw on raw materials available locally and in surrounding area. The Washington Tobacco Market serves a wide area. There are 61 industries in the county employing 13,500 workers.

Service Institutions

Washington has an unlimited supply of electric power, furnished by the City of Washington Utilities Commission. Washington's Jordan water filtration plant, among the most modern in the state, filters 2,750,000 gallons per day, and the average daily usage is 2,000,000 gallons. The sewage disposal plant has clarifiers sufficient to handle double the present requirements, with capacity of $2\frac{1}{2}$ million gallons per day to serve up to 48,000 population. The extensive facilities of the Tidewater Natural Gas Company provide gas to customers on existing city mains. Several local bottled gas companies render service within the community at reasonable rates. Natural gas is available.

The city is served by two railroads, Southern Railway Company and the Seaboard Coast Line Railroad Co. Both rail terminals are located near the center of the town. Washington is served by two bus lines at the Union Bus Terminal, and numerous national trucking lines. Bay boats and barges provide cheap transportation for bulky cargoes on the Pamlico River with its 12-foot channel connecting the city directly with the Inland Waterway 30 miles east of the City.

The nearest commercial airport is at New Bern, 35 miles south. Washington's airport is used by private land and sea planes. The local airport is Government-built and has concrete runways 150 feet wide and 4,500 feet long. Flying charter service is available.

Washington's educational facilities consist of 5 elementary and two junior-senior high schools with 4,294 students. Nearby colleges are East Carolina University at Greenville, Atlantic Christian College at Wilson and Chowan Junior College at Murfreesboro.

New homes and residential developments constantly add to the beauty of Washington's residential areas. The people are naturally friendly and hospitable, which adds to the charm of this historic city. Its natural advantages of being near the water attract people to Washington for the numerous water sports, and the hotels, motels and tourist homes cater to the fisherman, hunter, water skiing enthusiast, yachtman and all interested in the advantages which the big Pamlico River has to offer.

Redevelopment and Housing

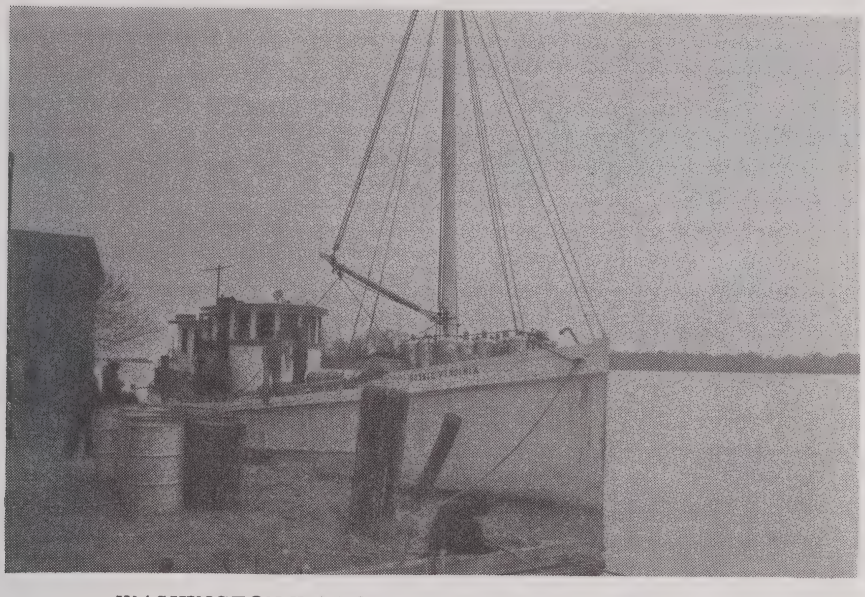
In June 1961 the City Council appointed the Redevelopment Commission and the Washington Housing Authority to plan to eleminate slums and blighting conditions in the City and to provide low rental public housing for people who could not afford decent homes. Washington now has 16% public housing.

Survey and Planning Funds for the East End Urban Renewal Area were approved in November 1962. This area comprises 417 acres, which is approximately 1/3 of the City of Washington.

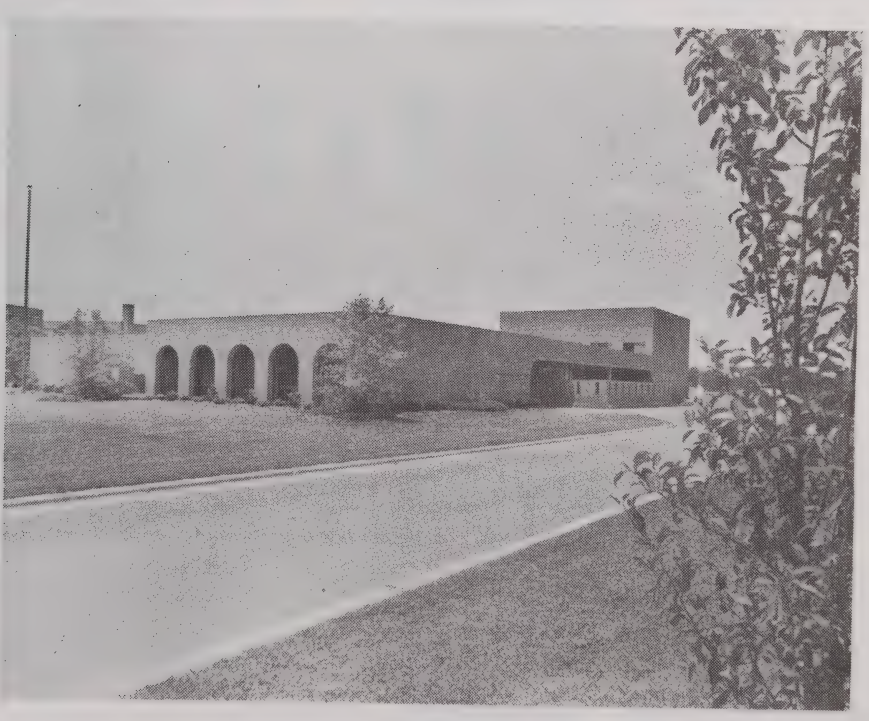
According to the plan the structures in the area that cannot be rehabilitated will be removed and the rest of the structures will be rehabilitated and brought up to standard.

Some land will be made into parks and recreation areas and to give local schools much needed additional land area.

The Downtown-Waterfront Urban Renewal Area Project was approved in August 1963 and comprises approximately 70 acres, and includes the central business district of the City.



WASHINGTON WAS ONCE A THRIVING RIVER PORT



TIDELAND MENTAL HEALTH CENTER

The realization of the redevelopment of the Downtown-Waterfront Urban Renewal Area on the basis of a shopping center can make Washington the East North Carolina Shopping Center.

One hundred and sixty five units of Public Housing have been completed.

The Goal of the Commissions is to eleminate slums and blighting conditions in the City of Washington.

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ **The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED** ★

NUMERICAL TELEPHONE DIRECTORY
BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numercial sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:
Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:
Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled
